## Survey Comments on Question 1

The US attorney has indictments ready vs SF corruption...which should suck Pelhosi in. I cannot see the SF District doing anything other than being Demon o crats... Anonymous

How do you find a plaintiff? Is this a small county? I'm just not sure of the timeline in trying to find someone to 100% decide on my vote here. Anonymous

WE THE PEOPLE MUST STOP DANGEROUS 5G MICROWAVE RADIATION BY ANY MEANS NECESSARY. Anonymous

I have been in this game a long time - many years. This is not going to go away overnight. It is good now to have a winning strategy. It is better to wait for the right time. Be patient and let us all pray that God will find us the crack in the armour that we need to plant this arrow. Anonymous

You need to communicate with everyone just what it takes to obtain a plaintiff from the Northern Cal district. If it is something that everyone could work on you could enlist everyone as " a citizen work force" to help you get over this obstacle more quickly Anonymous

There is so much corruption. I don't think we should trust a corrupted court with something so important. What does it take to get a plaintiff? Advertisements? Mass emails? Anonymous

I guess it depends on how long the wait is. I trust you will do what you think is best. Anonymous

If it will take more than 6 months to get a plaintiff its not worth it. Industry moving fast. Anonymous

There is so much current 5G rollout citizen resistance in northern California that it should not be difficult to find a plaintiff there. Lots of activity particularly in Monterey. Stay flexible. Anonymous

I would say file anyway but wonder do we have a plaintiff? If we don't have a solid one on hand now, then would want to wait..and keep looking intensively and pray the person surfaces....they are more and more 5G towers all over the Bay area and it is living hell to even drive through the area on the highways. As a military veteran I have found rushing things never ends well. Strategy always wins out. Anonymous

5G is a major health threat to all citizens. States Attorneys general should be notified with civilian affidavits and Strict liability charges filed against corporate executives employed in the telecom industries.

Grand juries should be established in all State jurisdictions, and district courts avoided.

File right away, and appeal with argument didn't receive due process because of virus. Anonymous

Why not contact Dane Wigington and see if he would be a plaintiff?

Does Shasta qualify for that district? He certainly understands the issues. Or how about Deborah Tavares at Stop the Crime.net? Anonymous

However what kind of plaintive do you need- do you need help with a search ? I'm not sure how complicated is to find . Anonymous

CAN'T YOU GET AN EMERGENCY CEASE AND DESIST ORDER TO STOP THE 5G ROLLOUT BASED ON THE UNPRECEDENTED FACT THAT WE'RE IN THE MIDDLE OF A PANDEMIC? Anonymous

What has been tracked is the amount of those sick with the Covid is in the areas where the most 5G antennas have been placed. This is true in Wuhan and South America. Why not in another district that Trump has dumped the crooked judges in corrupt CA? Anonymous

What is a shot clock???

5G IS ESSENTIAL TO A DANGEROUS TECHNOCRATIC GLOBAL AGENDA FOR TOTAL SURVEILLANCE AND CONTROL USING THE VIRUS AS AN EXCUSE TO ENSLAVE EVERYONE ON EARTH.

As above. Hold fast. God is much bigger than all of us.

Since we don't know what is involved in finding a plaintiff, we aren't in a position to understand if this can happen slowly or quickly.

Placement of 5G mini cells is happening in residential areas such as Santa Rosa CA, I dont understand how the Lockdown is preventing people from feeling sick without leaving their homes. Wouldn't a group of people like this make for a satisfactory Plaintiff?

Another consideration is, estimate for Covid vaccine is 1 to 2yrs. this quicker then a 3 to 5 yr trial

5G needs to be stopped as soon as possible. Put all energy into finding a plaintiff within their 30-day shot clock. Maybe advertisements?

Wait for someone within 30 day clock. 3 yrs 5g will be done rolling out!!

Anonymo

not sure what 30 day shot clock means. If that really will expedite and we have a very good chance of finding someone, then wait...otherwise, go for it. Elan Musk is launching satellites like popcorn in the sky. we need to keep pressing on whatever we do. I am with you.

I WOULD WAIT FOR 6-12 MONTHS...THEREAFTER MIGHT AS WELL FILE

A bird in the hand is worth two in the bush -- especially since already-filed court cases can at least slow down 5G, as well as help stop 5G slaughter of birds suddenly dropping out of the sky -- or from bushes!

As much as I would like to see the roll out of 5G, or any towers stopped as soon as possible, the most important thing is to have a strong case

with a fair judge.

This part is not clear to me. "Someone within their 30 day shot clock". An individual or a city? Because you are so familiar with the case you know what you mean. I can't comment on this because I don't understand what you mean.

Some documents I saw suggested that Covid it was planned until 2025. Are you and your team aware of the UN agenda 21 now called agenda 2030? I would imagine that you are but if you are not I would highly suggest looking deeply into that because 5G, Covid, all that's happening right now is part of their long term goals for that agenda. Understanding this might help strategy although you may already be incorporating that info.

**AGAIN, WHY CAN'T ADJUSTMENTS BE MADE IN THE RULES FOR THIS UNPRECEDENTED TIME OF PANDEMIC? THESE ARE NOT NORMAL TIMES, AND NORMAL RULES SHOULD \*NOT\* APPLY. SURELY THE COURTS CAN SEE THAT?**

Thanks for all you do. I understand you and the legal team will ultimately make the best decision for all of us.
